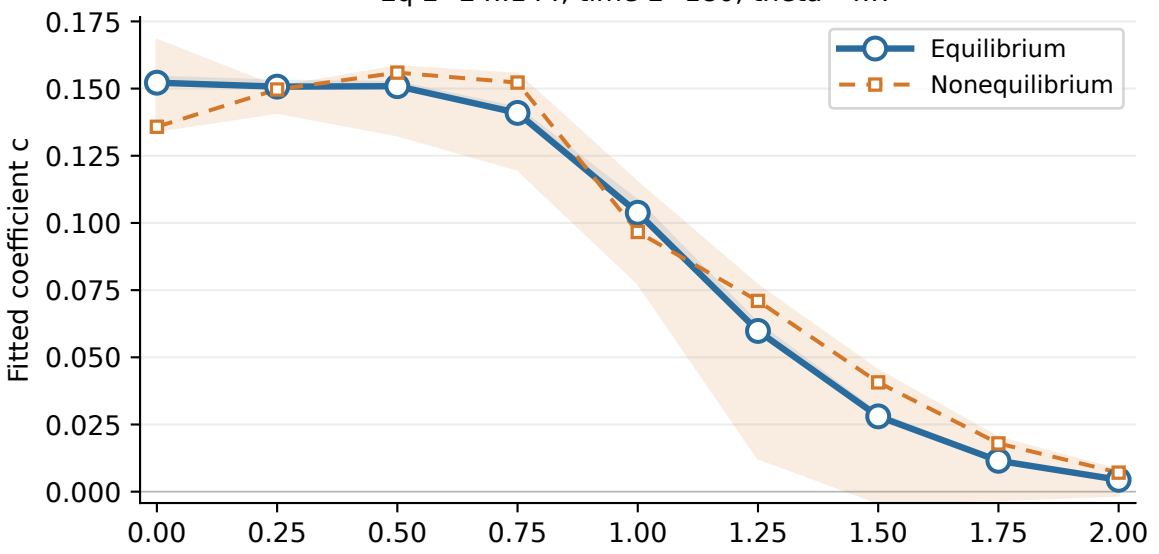
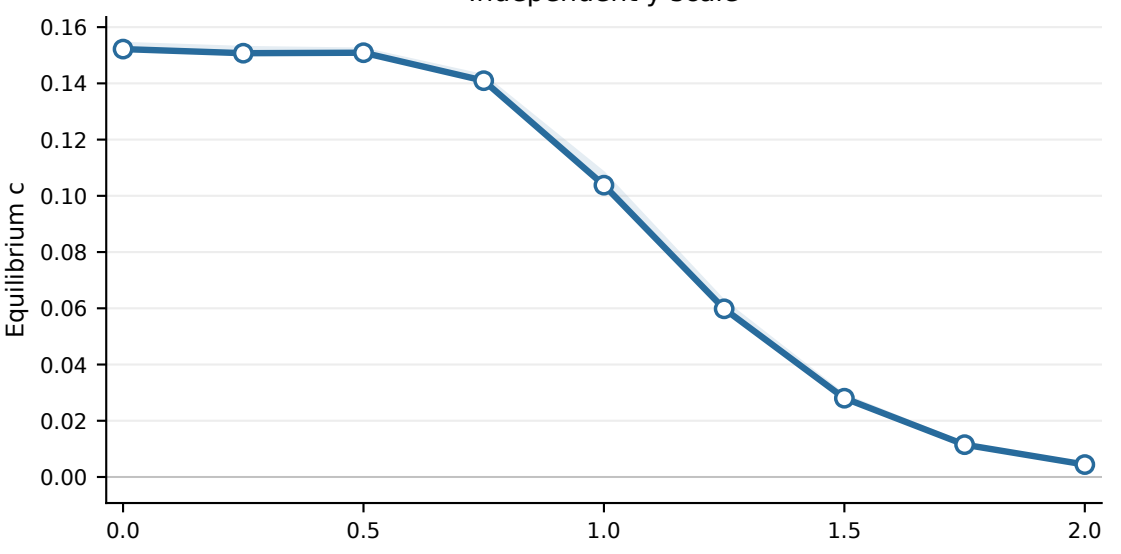
Follow-up coefficient comparison: final
Finite-window estimates, not certified angle coefficients.
Bands: model/window ranges, not confidence intervals; filled/open time squares: local pass/unresolved.

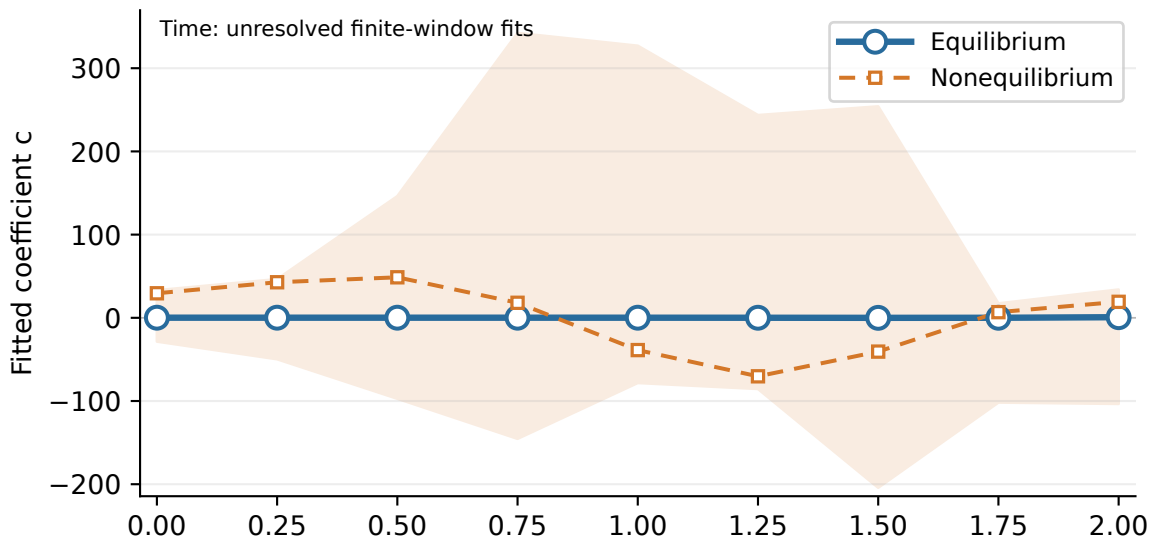
pure02_block4
Eq L=24..144; time L=180, theta=4..7



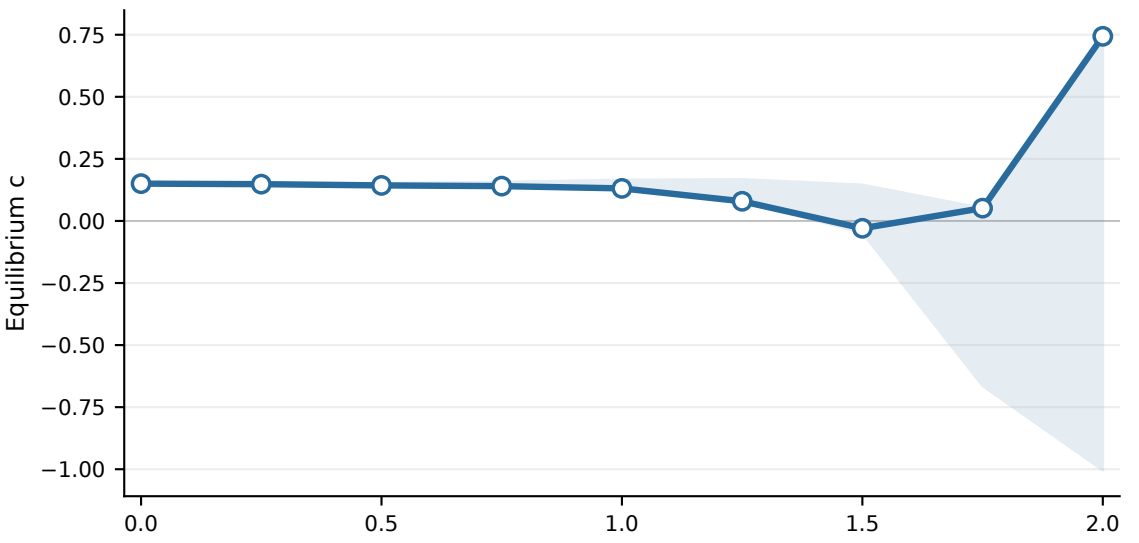
Equilibrium L=24..144 and size/model range
Independent y scale



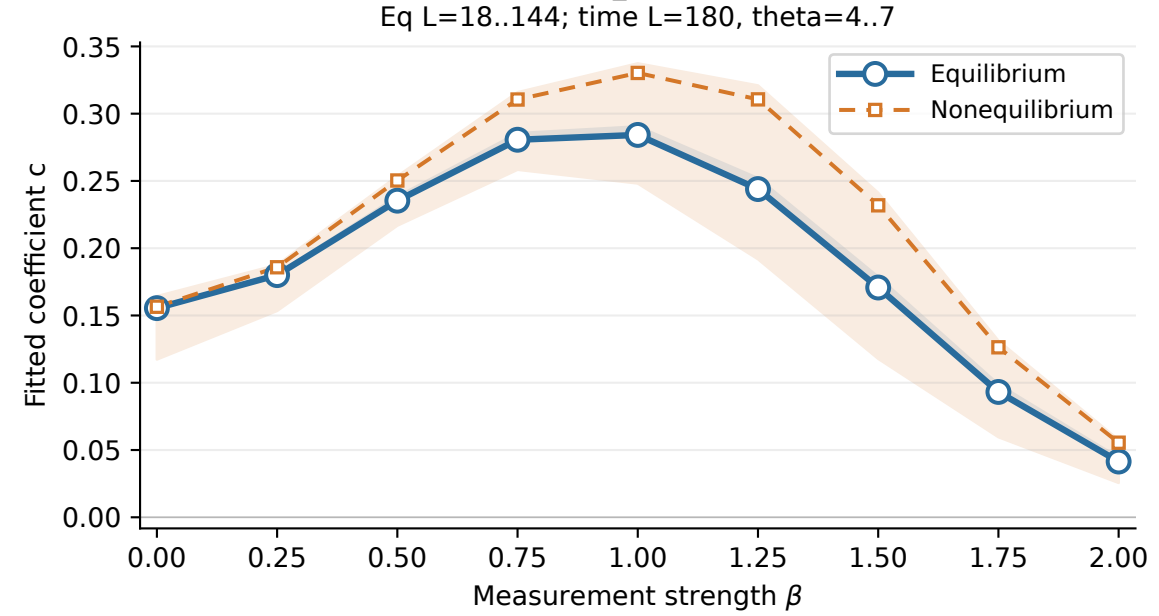
pure02_irregular4
Eq L=24..144; time L=180, theta=4..7

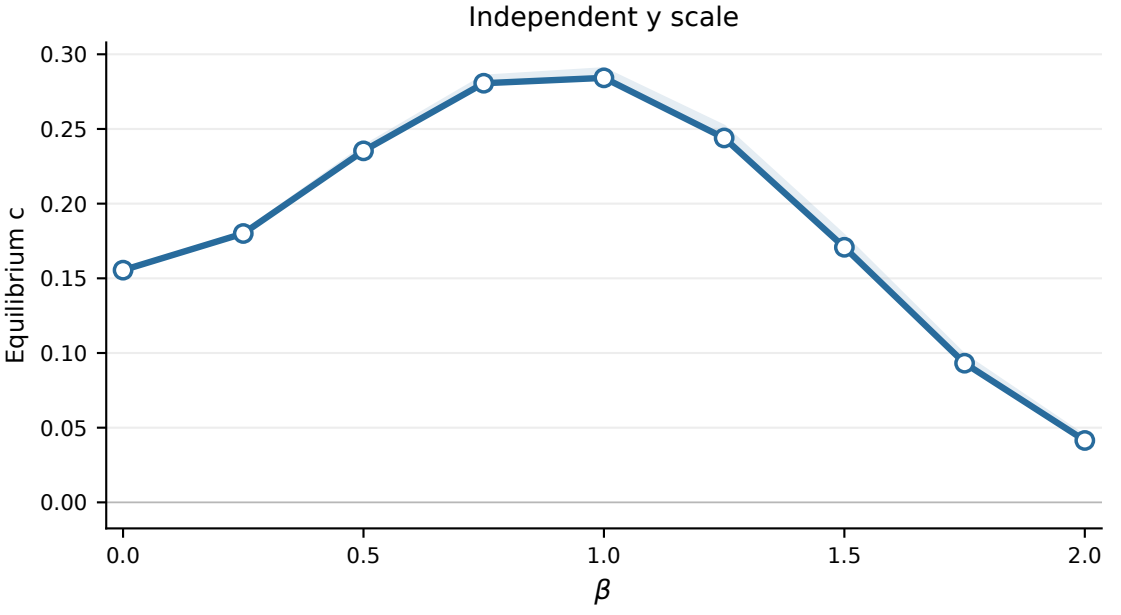


Equilibrium L=24..144 and size/model range
Independent y scale



near02_irregular3
Eq L=18..144; time L=180, theta=4..7





Equilibrium L=18..144 and size/model range
Independent y scale
