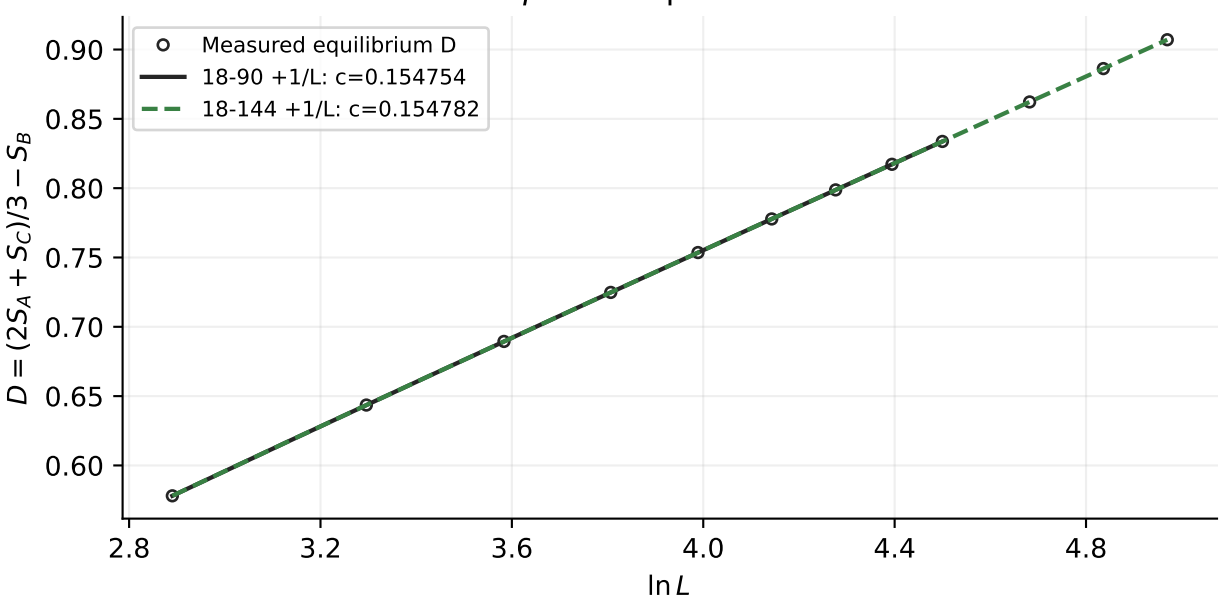
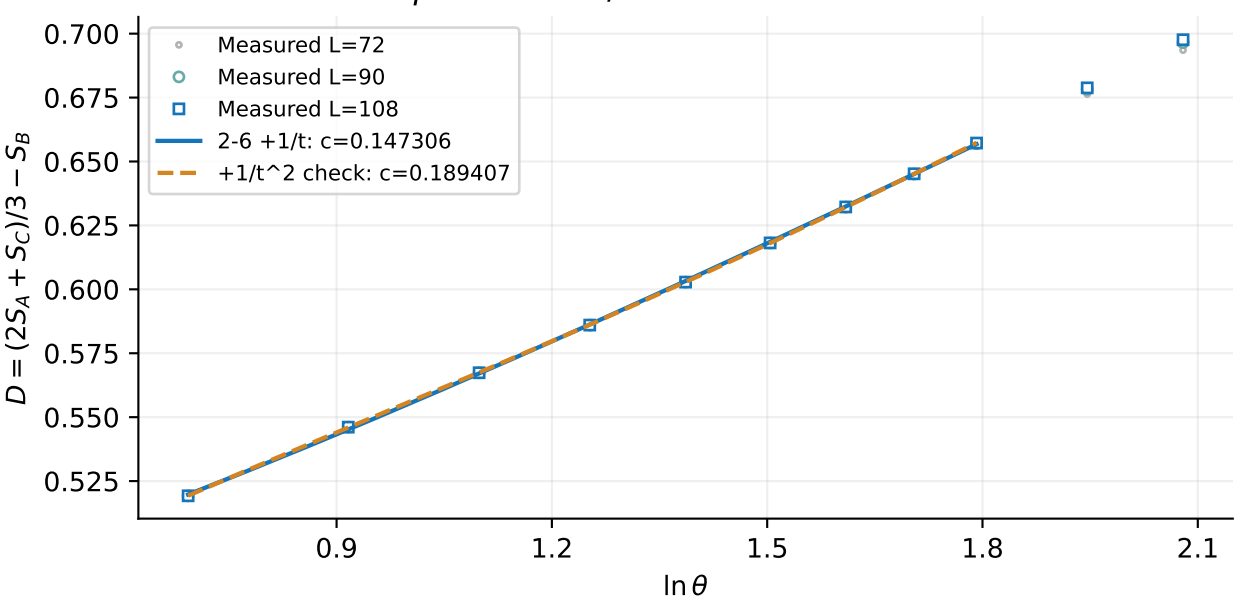
full_empty_cluster3: equilibrium / early-time diagnostics
Scale separation not certified; one species; no vertical offsets

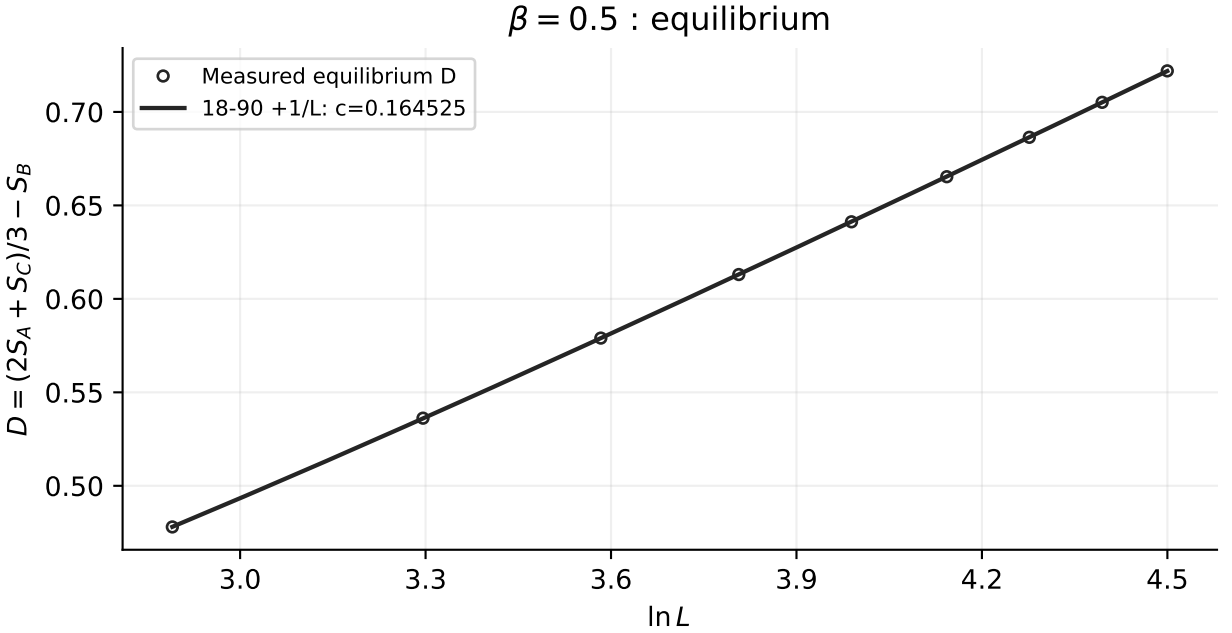
$\beta = 0$: equilibrium



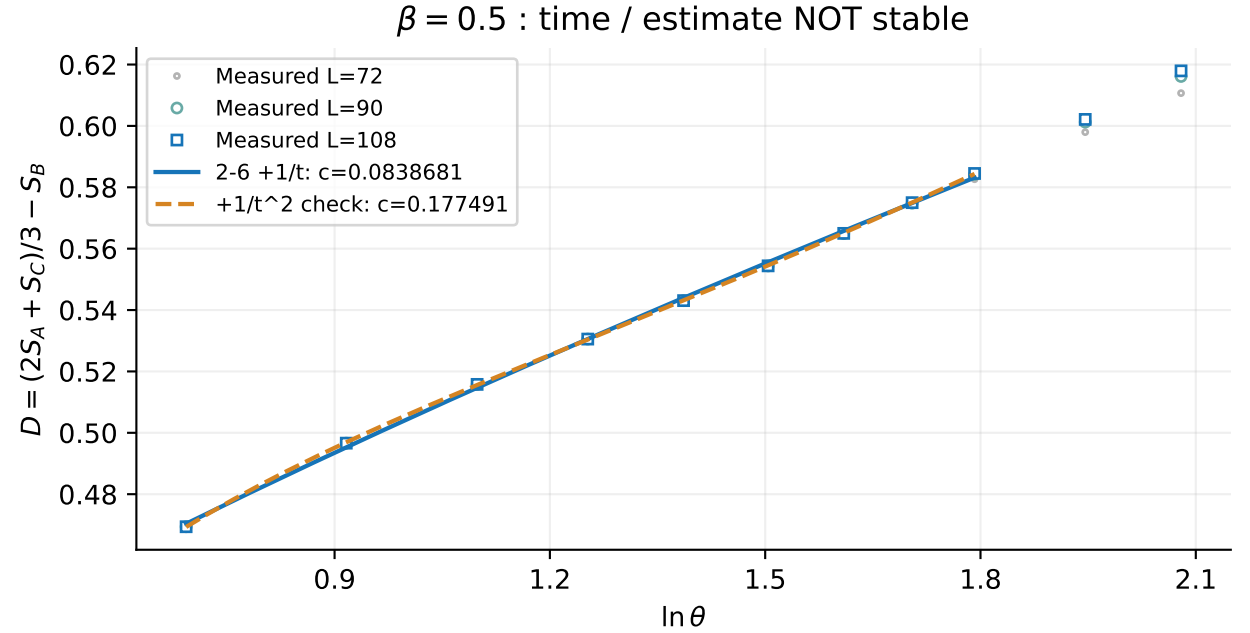
$\beta = 0$: time / estimate NOT stable



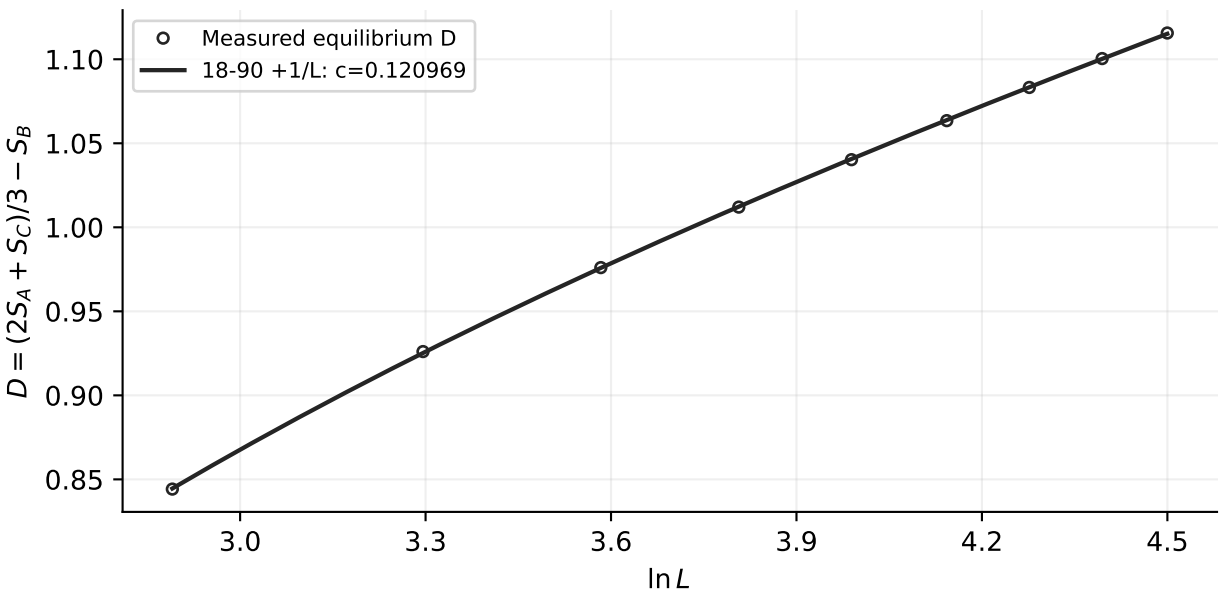
$\beta = 0.5$: equilibrium



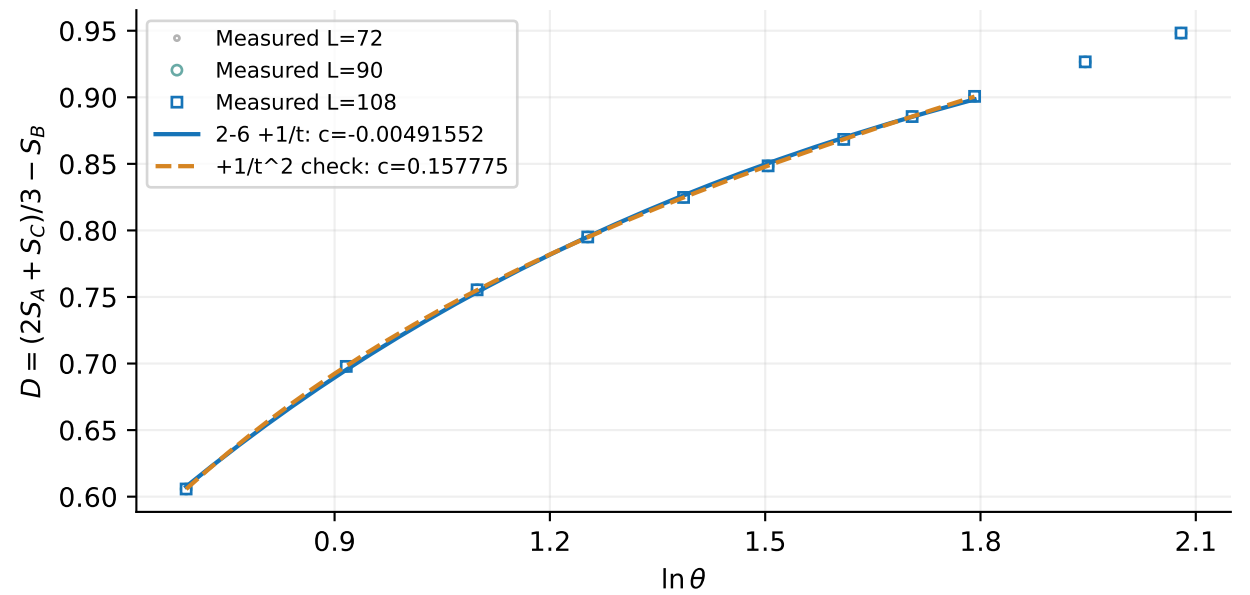
$\beta = 0.5$: time / estimate NOT stable



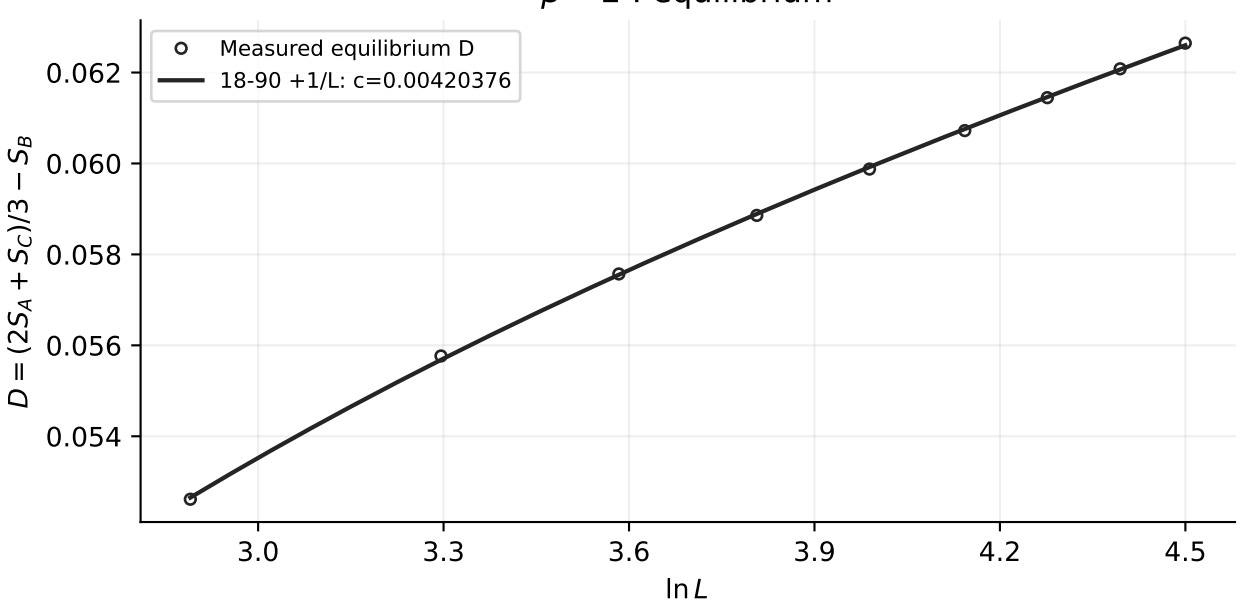
$\beta = 1$: equilibrium

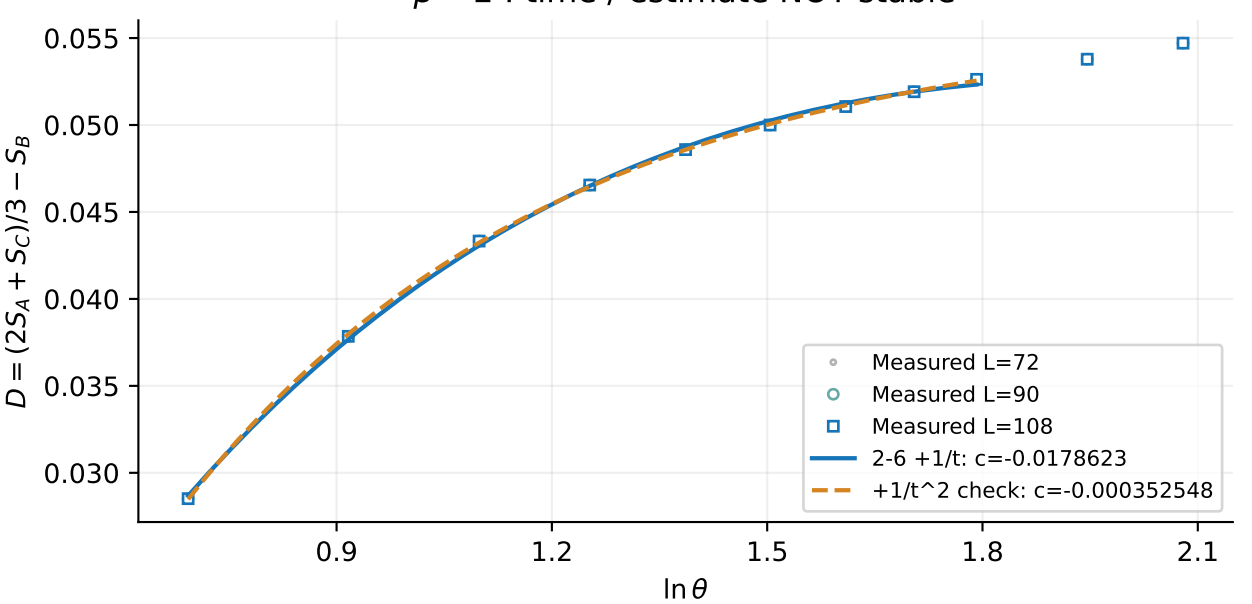


$\beta = 1$: time / estimate NOT stable



$\beta = 2$: equilibrium





$\beta = 2$: time / estimate NOT stable
